Take "BLACK-DRAUGHT" and you will never be bilious.

Carrollton Democrat: A fact to be considered is that in the problem of suppressing drunkenness by law it is much less difficult to get laws enacted than to get them enforced. "No license" and prohibition have been voted time and again in communities where the sale of liquor has gone right on with but little interruption. There is scarcely a community in which, if the laws now existing were thoroughly enforced, there would not be a great diminution of drunkenness. If the laws now existing are not enforced, it is not easy to see how more stringent laws could be added to the machinery of administration. We want not better laws so much as we want the power to execute what we have.

Consumption Cured.—An old physician, retired from practice, having had placed in his hands by an East India missionary the formula of a simple vegetable remedy for the speedy and permanent cure for Consumption, Bronchitis, Catarrh, Asthma, and all Throat and Lung Affections, also a positive and radical cure for Nervous Debility and all Nervous Complaints, after having tested its wonderful curative powers in thousands of cases, has felt it his duty to make it known to his suffering fellow-men. Actuated by this motive and a desire to relieve human suffering, he will send free of charge to all who desire it, this recipe, in German, French, or English, with full directions for preparing and using. Sent by mail by addressing the stamping this paper, W. W. SHEKAR, 119 Powers' Block, Rochester, N. Y.

A DISAPPOINTMENT.—On Monday September 8th, 1879, we were in St. Louis, and closed a trade with Mr. R. P. Yorkston, the western agent of the famous Campbell Press Agency, for a Hoe Cylinder Newspaper Press, that he had taken in a trade. It was to be shipped to us the following Monday, and we made our arrangements to make the Democrat larger on its reception. For some reason Mr. Yorkston has failed to ship the press, though we have been receiving regularly his promise that it would be here soon. Our hand press roller had nearly given out when we bought the Hoe Press, and being weekly in expectation of receiving it, we have not renewed the roller. The result of this is that the Democrat has not been printed as well as it should be, but we hope in a short time to remedy this defect, and to either enlarge the Democrat or arrange for a supplement, so that our readers can have what reading matter they are entitled to, for we are free to confess that we have not been giving them as much as we would like of late.

Ladies and Childrens Underwear at FOWLER & EWING.

Mrs. Branstetter sent us last week, an apple as large as a hen's egg, which was of the second crop that grew on the same tree this season. It appears to us rather remarkable that fruit trees should produce the second crop, in any one season, in this latitude. But it seems as if some of our fruit trees made the first crop this year, though none of the fruit come to maturity. On the outside papers we published from a small amount of land in one year, which is also rather remarkable.

MAN KILLED.—We learn that a young man named Wm. S. Wilson, met with an accident on Monday last on the farm of Mr. S. E. Ely, near a half mile west of Millville, which caused his death almost instantly. Mr. Ely, and the unfortunate young man were tearing down an old house. Mr. E., being on the roof and the young man on the ground below. Mr. E. got a log ready to roll off the top of the house and called to the young man to get out of the way. The young man told him to go ahead as he could keep clear of the log, but it appears he did not, as it struck him on the back of the neck breaking it and crushing in the base of the skull. It is a very unfortunate affair, but as far as we can learn, no blame can be attached to Mr. Ely, as he was getting a warning to the young man in time for him to get out of the way.
